#### **Drug Repurposing Wednesday, November 1, 2017**

Repurposing of drugs is quickly becoming a fast growing market expected to reach over \$30 billion worldwide by 2020. In this webinar, we will discuss what drug repurposing is, reasons for repurposing, the main players in the industry, and the scientific, intellectual property, and regulatory opportunities and challenges associated with such products in the U.S., Europe, and Japan. Additionally, some legislative proposals directed towards repurposing will be examined.

#### **“Best Practices for NDA’s and MTA’s in Collaborative Transactions” Thursday, August 31, 2017 Presenters: Jeffrey D. Peterson**

When companies collaborate, confidentiality and material transfer agreements are commonly used to protect each

party's confidential information and proprietary materials that may be shared. In this presentation, attorney Jeffrey D. Peterson will discuss the common issues and “traps” found in standard confidentiality, non-disclosure, and material transfer agreements, and discuss best practices in drafting and negotiating such agreements.
