

## Molly S. Lawson

**Partner**  
**Sub-Group Leader, Engineers, Scientists & Agents**

### Overview

Molly is experienced in all phases of obtaining patent protection both in the United States and internationally. Her patent prosecution and patent clearance practice is focused on computer software and hardware technologies, including:

- Wireless networks and communication protocols
- Vehicle and industrial machinery control systems, including RFID technology and near-field communications
- Imaging systems and applications (including computed tomography and radiographic image creation, analysis, and management)
- Productivity and messaging software and services
- Cryptographic and security applications
- Web-based applications and business methods

She also has significant experience in drafting agreements and contracts, including:

- License agreements
- Joint development agreements
- Non-disclosure agreements
- Privacy agreements
- Hosting service agreements
- Source code and technology escrow agreements
- Terms-of-use agreements for websites and software applications

### Experience

Representative engagements:

- Filing multiple patent applications under a streamlined process and timeline for a Fortune 500 company engaged in mobile communications
