

Robert C. Brooks [^]

Associate

[^] DC; Pending DC

Overview

Rob helps clients protect their electronic and computer-based technologies. His Bachelor's degree in Computer Engineering, experience as a software developer, and experience patenting his own invention inform his practical patent prosecution counsel.

Rob is knowledgeable in a variety of high-tech innovations, with particular experience in algorithms and logic circuits, batteries and circuits, digital signal processing, electromagnetism, and remote sensing technologies. He also has considerable experience with automotive control systems including automated driving systems, braking and steering systems, and exhaust gas recirculation systems.

Prior to joining Michael Best, Rob was an attorney with Michigan-based IP boutique.
