

Roxane E. Maywalt

Senior Counsel

Overview

With nearly 25 years of experience in energy law, Roxane offers clients advice on federal and state laws and regulations, as well as effective representation in litigation of complex Federal Energy Regulatory Commission (FERC) proceedings involving natural gas and electric matters.

Roxane has advised a diverse group of clients on FERC regulation of natural gas pipelines, electric transmission companies, and LNG and hydroelectric facilities. She has worked with major industrial gas users, electric and natural gas utilities, electric generators (conventional, renewable, and hydroelectric fueled), large municipalities, federal power agencies, and interstate natural gas pipelines on a broad range of energy issues. These include:

- Rates and non-rate tariff terms and conditions of service
- Siting, construction, and certificate proceedings
- Transactions and agreements
- Commodity markets
- Project finance and related FERC compliance
- Electric reliability investigations and compliance
- Environmental issues relating to FERC compliance

Roxane began her legal career as an attorney in the Office of General Counsel at FERC, where she held positions in the pipeline certificates and hydroelectric licensing sections. She spent more than 10 years in the energy practice of the D.C. offices of three law firms, in addition to serving as senior counsel at a major gas and electric utility company in the Northeast.

Roxane has represented pro bono clients in Social Security Administration claims and served as a non-partisan monitor of national, state, and local elections for the Lawyers' Committee for Civil Rights Under Law's Election Protection project. She has also been an instructor and mentor for multicultural high school students in law classes and mock trial competitions in conjunction with Georgetown University Law Center.
